Finances API

Learn how to obtain financial information for your orders using the Finances API.

You use the [Finances API](#) to get financial information that is relevant to a seller's business. You can obtain financial events for a specified order or date range without having to wait until a statement period closes. Refer to the [Finances API Reference](#) for details about the operations and associated data types in the Finances API.

Current version	Legacy versions	Availability	Sandbox
v2024-06-19 (Reference Model)	v0	Sellers only	Static

► [Release notes](#)

To learn more about the terms that are used in this guide, refer to [Terminology](#).

Use cases

The following use case examples are available for the Finances API:

Finances API v2024-06-19

- [Get the latest transactions](#): Review transactions on a Seller's account.
- [Determine which transactions make up a payment](#): Determine which released transactions make up a payment based on matching identifiers.

Finances API v0
