Get authorization to access shipment information for multiple shipments

Learn how to use the Tokens API to get authorization to access shipment information for multiple shipments.

Learn how to use the Tokens API to get authorization to access shipment information for multiple shipments. You can get an RDT that provides authorization to get shipment information for any of a selling partner's shipments.

Prerequisites

To complete this tutorial, you need:

- Authorization from the selling partner for whom you are

making calls. For more information, refer to [Authorizing Selling Partner API applications](#).

- The [Direct-to-Consumer Shipping \(Restricted\)](#) role assigned to your developer profile.
- The [Direct-to-Consumer Shipping \(Restricted\)](#) role selected in the app registration page for your application.
- Shipment IDs for the shipments that you want to get shipment information for.

Step 1. Get an RDT

1. Call the [createRestrictedDataToken](#) operation.
2. Save the `restrictedDataToken` value (the RDT) to use in [Step 2. Include the RDT with a call the getShipment operation](#).

Step 2. Include the RDT with a

call the `getShipment` operation

Call the `getShipment` operation of the Merchant Fulfillment API, using the generic path that you specified in [Step 1. Get an RDT](#) and replacing `{shipmentId}` with a real shipment ID from the selling partner. For example, GET `/mfn/v0/shipments/FBA1234ABC5D`. Repeat this step for all of the shipments for which you want shipping information, specifying the appropriate shipment ID with each call. Each call must include the RDT from [Step 1. Get an RDT](#) in the `x-amz-access-token` header.

**Note**

An RDT remains valid for one hour.
