Get shipping labels

Learn how to use the Vendor Direct Fulfillment Shipping API to get shipping labels.

Learn how to use the Vendor Direct Fulfillment Shipping API to get shipping labels. The

[getShippingLabels](#) operation returns shipping labels for all orders which meet the filter criteria specified in the request. You must have already requested shipping labels using the [submitShippingLabel](#)

[Request](#) operation before you use this API to get shipping labels available to you for fulfillment. Amazon recommends that vendors check for shipping labels at least once per hour during business hours. Depending on your business volume, you can choose to check more frequently. You

Selling Partner API Roles >

Get shipping labels

can get up to 100 shipping labels in one API call. If there are more than 100 shipping labels you can use the `nextToken` value to get the next set of shipping labels.

Shipping labels expire 90 days after their creation date (the `submitShippingLabel` Request date).

The following diagram shows the integration workflow when retrieving shipping labels:

Prerequisites

To complete this tutorial, you need:

- Authorization from the selling partner for whom you are making calls. For more information, refer to [Authorizing Selling Partner API applications](#).
- The [Direct-to-Consumer Shipping \(Restricted\)](#) role

[Policies and Agreements](#)[About Facial Data](#)**AUTHORIZATION**[Authorize Applications](#) >[Renew Authorizations](#)[Revoke Authorizations](#)[Authorization Limits](#)[Special Authorization Types](#) >**INTEGRATION**[Building Robust Amazon SP-API Applications](#) >[SP-API SDKs](#) >

Get shipping labels

assigned to your developer profile.

- The [Direct-to-Consumer Shipping \(Restricted\)](#) role selected in the app registration page for your application.

Get shipping labels

Note

This is a restricted operation and requires a Restricted Data Token (RDT) for authorization. Some operations require restrictions because they contain customer PII data. These operations require passing an additional security review. For more information on RDT, refer to the [Tokens API](#) guide.

To retrieve a list of shipping labels, call the

Delete an Application From Your Developer Account

[getShippingLabels](#)
operation.
