Guard Cost

Cost estimate for Amazon Selling Partner API Guard

You are responsible for the cost of the AWS services used while running Selling Partner API Guard, and it varies based on your company's AWS usage and each service's cost structure. We keep the overall cost of running Selling Partner API Guard low by using sampling and time-bound jobs. For instance, rather than scanning your Amazon S3 buckets in entirety, Selling Partner API Guard looks for unencrypted buckets and then performs a sample scan to determine if there is sensitive unencrypted data in those buckets.

As of October 2022, the cost for using Selling Partner API Guard with all scan rules activated in the US East (N. Virginia) is less than **\$500**.

AWS service	Cost range	Notes
AWS Security Hub	\$0-\$20	None
Amazon Elastic Compute Cloud (Amazon EC2) / Amazon Virtual Private Cloud (Amazon VPC)	\$0-\$10	Cost for up to one month
Infrastructure (Amazon S3, AWS Lambda, Amazon	<\$10	None
