Learn How Sellers Authorize Service Providers

Learn how sellers authorize service providers to access their Seller Central account.

This guide explains the steps that a seller takes to authorize a service provider to access the seller's Seller Central account. If you're a service provider, you might need to guide a seller through this process.

Overview

The authorization process requires the seller and the service provider to complete specific steps:

1. The seller sends an invitation link to the service provider.
2. The service provider accepts the invitation and sends a

confirmation
request.

3. The seller accepts the confirmation and grants specific permissions.

Prerequisites

Before this process begins:

- The seller must have an active Seller Central account.
- The service provider must be registered in Solution Provider Portal.
- The service provider must have completed the developer verification process.
- The service provider must have been approved for the necessary roles before initiating the authorization workflow.

Steps for sellers to grant access

To authorize a service provider to access the seller's Seller Central account, the seller takes the following steps:

SP-API SDKs

1. Sign in to [Seller Central](#).
2. Choose **Settings**, and then choose **User Permissions**.
3. Under **User Management**, choose the **Authorized Partners** tab.
4. Choose **Add Authorized Partner**.
5. In the pop-up window, choose **Copy link** to copy the one-time invitation link.
6. Send the copied link to your service provider through email or through another messaging platform.

Tip

The invitation link works regardless of your marketplace location.

The link expires after seven days.

Tutorial: Automate your SP-API Calls Using a Python SDK

7. Wait for the service provider to accept the invitation.

When the service provider accepts the invitation, you receive an email confirmation and must log in to Seller Central to complete the next steps.

8. After you receive confirmation of the Service Provider's invite acceptance:

1. Sign in to Seller Central.

2. Choose **Settings**, and then choose **User Permissions**.

3. Choose **Open Invitations**.

4. Next to the service provider's name, choose **Accept Invitation**.

5. Select the Seller Central role permissions that you want to grant to the service provider.

6. Choose **Save Changes**.

Amazon Selling Partner API Guard Implementation Guide 

You can change this access at any time by returning to the **Authorized Partners** tab.

Steps for service providers to request access

As the service provider, you need to complete the access request using the seller's invitation link.

To request access to a seller's account, take the following steps:

1. Receive the invitation link from the seller.
2. As the primary account user or admin, sign in to your Solution Provider Portal account.

Important

You must be signed in as the primary account user or admin before starting

this
process.

- 3. Open the invitation link that the seller provided.
- 4. Review the details in the invitation.
- 5. Choose **Send Invitation** to confirm all details and send your access request.

VAT Calculation Service

> After you send the invitation, the seller receives a notification. The seller must then accept your request and grant specific permissions before you can access their account.
