Frequently Asked Questions >

List Your App on the Selling Partner Appstore

Learn how to complete the List Your App form.

Use this document to complete the **List your app** form and request app publication on the Selling Partner Appstore.

Requirements to list applications

You must meet the following requirements to list applications in the Selling Partner Appstore:

- You have [registered as a public developer](#) for a public SP-

CHANGELOG[SP-API Release Notes](#)[SP-API Deprecation Schedule](#)[SP-API Product Metadata Updates](#)**DIRECTORIES**[SP-API Models](#)[SP-API Seller Use Cases](#)[SP-API Vendor Use Cases](#)[Seller Central URLs](#)[Vendor Central URLs](#)**REGISTRATION**[SP-API Registration Overview](#) >[Developer Registration Request Status](#)[Third-Party Provider Registration](#) >[Service Provider Registration and Role Approval Process Overview](#)[Website Guidelines for Public Developers and Service Providers](#)[User Permissions for Service Providers](#)[Register your Application](#)[Update your Application Information](#)[Rotate your Application's LWA Credentials](#) >[View your Application Information and Credentials](#)[Learn How Sellers Authorize Service Providers](#)[Selling Partner API Roles](#) >

API
applicatio
n.

- You have configured an OAuth authorization workflow through the [Selling Partner Appstore](#) or [your own website](#).

- All the features and services offered on your website are compliant with the [Acceptable Use Policy \(AUP\)](#) and [Data Protection Policy \(DPP\)](#).

Although you're not required to list your app on the Selling Partner Appstore, authorization limits apply to unlisted apps that serve sellers. For details, refer to [Authorization Limits](#).

[Policies and Agreements](#)[About Facial Data](#)**AUTHORIZATION**[Authorize Applications](#) >[Renew Authorizations](#)[Revoke Authorizations](#)[Authorization Limits](#)[Special Authorization Types](#) >**INTEGRATION**[Building Robust Amazon SP-API Applications](#)[SP-API SDKs](#) >

Step 1. Open the form

1. Sign in to the [Solution Provider Portal](#) using your developer credentials.

**Note**

For **Seller Central** users, sign in to [Seller Central](#) for your marketplace and navigate to **Apps and Services**, then [Develop Apps](#).

For **Vendor Central** users, sign in to [Vendor Central](#) for your marketplace and navigate to **Integration**, then [API](#).

content such as user credential s, customer quotes, and unpublished Amazon data.

- Do not include personally identifiable information (PII) about the Developer or others (such as a home address or phone number).
- Do not use any expressions or phrases such as "The best", "Number 1", and "The only."
- Do not include functionalities or features that are against

			the Acceptable Use Policy (AUP), Data Protection Policy (DPP), and other Amazon policies. For example, a developer must not promote violation of any agreement between authorized users and Amazon, or statement that promotes workarounds to Amazon policies. • Do not use any terms trademarked by Amazon, including AMZ. For more information, refer to Non-Exhaustive

reports and crucial alerts.

- **Long description:**
Describe the features of your app using a maximum of 4000 characters.

Here are some tips for writing good descriptions:

- Be specific and factual.
- Clearly state the benefits and the features of the app.
- Match the categories in your description with the categories that you chose when registering your application.

Enter the following information:

VENDOR RETAIL PROCUREMENT TRANSACTION STATUS API

Vendor Retail Procurement Transaction Status API >

- **Business Logo for detail page:**

Upload an image that represents your app. The image must meet the following criteria:

- Minimum dimensions of 300 x 300 pixels
- A width to height ratio greater than 0.95 and less than 1.05 (close to a square)
- Maximum file size of 2 MB
- Represents your business or your app
- No offensive or sensitive subjects
- No Amazon logos or trademarks

- **Business Logo for category page**

title: Upload an image that represents your app. This image is displayed on the search page of the

Appstore. We recommend you use the same image as your detail page Business logo for consistency. The image must meet the following criteria:

- Minimum dimensions of 220 x 220 pixels
- A width to height ratio greater than 0.95 and less than 1.05 (close to a square)
- Maximum file size of 2 MB
- Represents your business or your app
- No offensive or sensitive subjects
- No Amazon logos or trademarks
- **Additional images (optional):** Upload up to six images that represent your app. These images are shown at the top of your application detail page, in the gallery under the logo. We recommend you include images

that show the user experience of your application. Some examples include screenshots of the application's functions and workflows. The images must meet the following criteria:

- Minimum dimensions of 300 x 300 pixels
- A width to height ratio greater than 0.95 and less than 1.05 (close to a square)
- Maximum file size of 2 MB
- Represents your business or your app
- No offensive or sensitive subjects
- No Amazon logos or trademarks

For more information on Amazon

Trademarks, refer to [Non-Exhaustive List of Amazon Trademarks](#).

- **From the provider (optional):** Upload up to two banner style images that represents your

app. These images are shown under **Features** in the **From the Developer** section of your application detail page. We recommend you use images that highlight why a user should use your application. The images must meet the following criteria:

- Minimum dimensions of 970 x 300 pixels
- Maximum file size limit of 2 MB
- Represents your business or your app
- No offensive or sensitive subjects
- No Amazon logos or trademarks

For more information, refer to [Non-Exhaustive List of Amazon Trademarks](#).

Choose **Save and submit**. The **Thank you!** page includes a link to your case log, where you can view the progress of your listing request. After the review is complete, you

will receive a case log notification with the results.

If your app is approved, the Selling Partner Appstore team will publish your app in the Selling Partner Appstore in three to four weeks.

If your app is not approved, you will receive a notification that provides the identified violations. You can make a request to submit a new case after you make the necessary updates.
