What is the Selling Partner API?

Selling Partner API Onboarding Overview >

Preview errors before partially updating a listing

Learn how to preview errors before partially updating an Amazon listing for a given selling partner and Amazon marketplace using the Listings Items API.

Learn how to preview errors before partially updating an Amazon listing for a given selling partner and Amazon marketplace using the Listings Items API.

Partial updates are submitted in the form of JSON Patch documents. For more information about JSON Patch documents, refer to [JSON Object Notation Patch](#). For Amazon listings, JSON Patch documents can add, replace, or delete entire attributes. Patching content within attributes is not supported.

Terminology

Frequently Asked Questions >

Prerequisites

To complete this tutorial, you need:

- Authorization from the selling partner for whom you are making calls. Refer to [Authorizing Selling Partner API Applications](#) for more information.
- Approval for the Product Listing role in your developer profile.
- The Product Listing role selected in the App registration page for your application.
- For attribute updates, JSON-based listing attribute payloads adhering to the JSON Schema provided by the Selling Partner API for Product Type Definitions for the given selling partner, Amazon marketplace, Amazon product type, and attributes.
- For attribute deletes, JSON-based listing attribute payloads adhering to the JSON Schema provided by the Selling Partner API

for Product Type Definitions for the given selling partner, Amazon marketplace, Amazon product type, and attributes with the selector properties of the attributes to delete. Attributes cannot be deleted by name alone. The selector values identify which instance of attributes to delete.

Preview errors for a listings item PATCH request

Call the `patchListingsItem` operation and set the `mode` query parameter to `VALIDATION_PREVIEW`.

Note

Validation Preview mode returns the pricing validation issues when you include the price attributes in the request body. For more
