Retrieve a list of featured offers for a batch of up to 20 ASINs

Learn how to retrieve information about the featured offers by ASIN (up to 20 ASINs) using a batch operation.

Learn how to retrieve information about the featured offers by ASIN (up to 20 ASINs) using a batch operation.

Prerequisites

To complete this tutorial, you must have:

- Authorization from the selling partner for whom you are making calls. For more information, refer to [Authorizing Selling Partner API applications](#).
- The [Pricing](#) and [Product Listing](#) roles assigned to your developer profile.

Frequently Asked Questions >

- The Pricing and Product Listing roles selected in the app registration page for your application.

Selling Partner API Roles >

Get the competitive summary

The

`getCompetitiveSummary`

operation retrieves detailed pricing and offer information for specific products within a marketplace. It returns data on featured buying options, reference prices, and the lowest-priced offers available, which include information such as the seller, item condition, listing price, and shipping costs. The response helps you compare various offers and pricing options, including segmented details based on customer type. The

`getCompetitiveSummary`

includes

`sampleLocation` in its

response. This optional

`sampleLocation` respons

e is currently available in

US, CA, MX, BR, DE, UK, IT,

FR, ES, IN, JP, AU, SG

marketplaces.

ReferencePrices

The following reference prices might be returned in the `referencePrices` section of the API:

Policies and Agreements		Name	Description
About Facial Data		CompetitivePriceThreshold	Price based on competitive prices from other retailers (excluding other Amazon sellers). The offer may be ineligible for the Buy Box if the seller's price + shipping (minus Amazon Points) is greater than this competitive price. This reference price is available only in the JP marketplace.

Authorization Limits			
Special Authorization Types	>		
INTEGRATION			
Building Robust Amazon SP-API Applications			
SP-API SDKs	>		
Delete an Application From Your Developer Account		CompetitivePrice	The Competitive Price is the lowest price for an item, or items that customers may consider to be equivalent, recently found at another reputable retailer outside of the Amazon

CALLING THE SP-API		Name	Description
Configuration Details	>		store, which may be used in determining Featured Offer eligibility. This reference price is available in all marketplaces except JP.
Call Structure	>		
Development Tools	>		
Performance Management	>	WasP rice	This price is determined using the 90-day median price paid by customers for the product on Amazon. We exclude prices paid by customers for the product during limited time promotions. For Amazon Fresh offers, the Typical Price is calculated as the median price offered locally in the last 35 days, excluding prices on promotions.
