What is the Selling Partner API?

Selling Partner API Onboarding Overview >

Retrieve shipment labels

Learn how to obtain shipping labels from Amazon.

You can use the

[GetShipmentLabels](#)

operation to obtain shipping labels from Amazon for small parcel shipments from Collect/WePay vendors.

The following diagram depicts the shipment label integration workflow:

Prerequisites

To complete this tutorial, you need:

- Authorization from the selling partner for whom you are making calls. For more information, refer to [Authorizing Selling](#)

Terminology

Frequently Asked Questions >

[Partner API Applications.](#)

- The [Vendor Retail Procurement Shipments role](#) assigned to your developer profile.

This operation helps vendors retrieve shipping labels for confirmed orders that require shipment from the vendor's warehouse to Amazon's warehouse. Vendors can retrieve labels through a single API call or multiple API calls. Labels are generated once the shipment request is finalized and a carrier is assigned. Vendors can filter labels by buyer reference numbers, seller warehouse codes, and other parameters.

Business requirements

- Call the `GetShipmentLabels` only after a carrier is assigned.
- If `GetShipmentLabels` does not return a label or returns `Resource Not Found`, verify that a carrier has been assigned. Alternatively, you can call

SP-API SDKs

Retrieve shipment labels

[GetShipmentDetails](#) to confirm

whether the carrier has been assigned.

- If a carrier has been assigned and the operation still returns no label, open a "Contact Us" case in the Vendor Central portal.
- Once a label is used for shipping, it can never be reused.

Country-specific business requirements

This API operation is available only in the NA region.

Get list of shipment labels

Call the [GetShipmentLabels](#) operation to return a list of shipment labels.
