Frequently Asked Questions >

Retrieve the amount and status of a payment

Learn how to determine the amount and status of a payment.

Learn how to retrieve the amount and status of a payment.

Prerequisites

To successfully complete this tutorial, you must have:

- Authorization from the selling partner for whom you are making calls. For more information, refer to [Authorizing Selling Partner API applications](#).
- Approval for the [Finance and Accounting role](#) in your developer profile.
- The [Finance and Accounting role](#) selected in the app

registration page
for your
application.

Learn How Sellers Authorize Service Providers

Selling Partner API Roles >

Step 1. Find the specific financial event group of the payment

Call the `listFinancialEventGroups` operation to retrieve the latest 100 financial event groups. This returns the groups and a page token for retrieving additional groups.

Step 2. Filter for closed financial event groups

To select financial event groups that have successfully sent payments, select the financial event groups where `ProcessingStatus` is equal to `Closed`.

Step 3. Retrieve the payment amount

The `OriginalTotal` property provides the total amount of disbursement or charge. The
