Rotate your Application's LWA Credentials

Learn how to rotate your application's Login with Amazon (LWA) credentials (client secrets).

Login with Amazon (LWA) credential rotation is the process of periodically updating your client secrets. Regular and timely rotation of LWA credentials limits the duration of exposed or compromised credentials.

You can rotate your LWA credentials manually or programmatically. You must rotate your LWA credentials (client secrets) for all applications every 180 days. You receive a notification 90 days before your LWA credentials rotation deadline. If you do not update your LWA credentials by the

deadline, your application returns an error when it calls the SP-API.

Tip

For a video tutorial about rotating your application's LWA credentials, refer to [Rotate Your Application's LWA Credentials](#)

Rotate the LWA credentials for your application

Follow these steps to rotate LWA credentials (only the primary account user can complete the process):

1. Sign in to [Solution Provider Portal](#) and navigate to your applications.

Note

For **Seller Central** users, sign in to [Seller Central](#)

TUTORIALS

Tutorial: Subscribe to the ORDER_CHANGE Notification

Tutorial: Test Selling Partner API Endpoints

Tutorial: Automate your SP-API Calls Using a C# SDK

Tutorial: Automate your SP-API Calls Using a Java SDK

Tutorial: Automate your SP-API Calls Using a JavaScript SDK for Node.js

Tutorial: Automate your SP-API Calls Using a Python SDK

5. View the updated target rotation date on the LWA credentials page.

6. Repeat Steps 2 through Step 6 for every application showing an expiration alert.

! Important

After you generate a new LWA credential (client secret), you must update your credentials for any applications that call Amazon APIs. Your old credentials expire seven days after you generate new credentials.

For a list of URLs by marketplace, refer to [Seller Central URLs](#) and [Vendor Central URLs](#).
