SP-API Bill-to-Party Addresses

A list of bill-to-party addresses for Vendor Retail Procurement API and Vendor Direct Fulfillment Payments API.

Bill-to-party addresses are currently used when creating invoices for the [Vendor Retail Procurement](#) and [Vendor Direct Fulfillment Payments](#) APIs. When submitting an invoice, bill-to-party address details must be complete and formatted correctly, or the API call will fail. If you do not know the Amazon Tax ID for a bill-to location, go to Vendor Central and from the **Support** page, select the **Contact Us** button to create a case.

Format bill-to-party addresses

The following examples show how to format bill-to-party addresses.

📖

Note

To format the `partyId` , append the marketplace identifier to `AMAZON` .
For example, the format of the `partyId` for an address in the US marketplace is `AMAZONUS` .

Formatting for addresses with tax registration details

Location	Bill-to-party address
