

Step 2: Create a Solution Provider Portal Account for Your Company

GET STARTED

- Welcome to SP-API Documentation
- What is the Selling Partner API?
- Selling Partner API Onboarding Overview >
- Onboarding as a Developer >

- Onboarding as a Service Provider >
 - Step 1: Learn the Service Provider Registration and Permissions Workflow
 - Step 2: Create a Solution Provider Portal Account for Your Company
 - Step 3: Verify Your Identity
 - Step 4: Complete the Service Profile for Your Company
 - Step 5: Apply for Seller Central Roles
 - Step 6: Invite Employees to Your Account

Step 2: Create a Solution Provider Portal Account for Your Company

Create the central account that your company will use to manage service provider operations.

As the service provider administrator, create your company's Solution Provider Portal account. Create only **one** Solution Provider Portal account per company — you invite employees to this shared account in a later step.

Steps to create your company account in Solution

Provider Portal

To create a Solution Provider Portal account for your company, take the following steps.

1. Navigate to [Solution Provider Portal](#).
2. If you currently access Seller Central accounts as a secondary user, sign in with the email address that you use to sign in to Seller Central. If you're new to Amazon, use any valid email address of your choice.

This email address will become your sign-in email for both Solution Provider Portal and future Seller Central access.

3. Read the Acceptable Use Policy and Privacy Policy, and then choose **Continue**.
4. Read **SPP Account Setup: General Guidance**, and then choose **Acknowledge & Continue**.
5. For your persona, choose **I'm a Service Provider**,

- View your Application Information and Credentials
- Learn How Sellers Authorize Service Providers
- Selling Partner API Roles

and then choose
Apply.

Next step

Proceed to [Step 3: Verify Your Identity](#).
