Step 3: Verify Your Identity

Complete identity verification for yourself and your company in Solution Provider Portal.

In this step, you complete the identity verification process for both yourself and your company in [Solution Provider Portal](#) . Only perform this step if you are the [service provider administrator](#). Later, if you invite employees to join the company account, the employees do their identity verification at that time.

Before you begin

Gather the required information:

- Have your business information such as your company registration number and your registered business address.

Step 3: Verify Your Identity

- Scan your identity proof (government-issued ID or passport and recent bank or credit card statement) so that you can upload it to the form, and have it on hand to show to the Amazon associate during the identity-verification call.

Steps to verify your identity

To perform identity verification for yourself and your company, take the following steps. For additional details, refer to [Verify Your Identity in Solution Provider Portal](#).

1. Navigate to [Solution Provider Portal](#).
2. Under **Verify your identity**, choose **Get Started**.
3. Gather your government-issued ID or passport, recent bank or credit card statement, and business license (if applicable), and then choose **Next**.
