Update your Application Information

Learn how to update your application information.

After [registering your application](#), you can update your application information. For example, you can add another OAuth redirect Uniform Resource Identifier (URI).

Update your application information

1. Sign in to the [Solution Provider Portal](#) using your developer credentials.
2. On the top navigation, select **Develop Apps**.
3. On the Developer Central page, find the application you want to update. Choose **Edit app**.
